2(A) Name: Ray Bicko Mattah

2(B). I joined the VA program so that I can improve my career development which can enable me to compete more effectively for the job market and also to be more productive to the environment that I am in.

2(C). What excites most in the VA program is:

i) Building a strong network beyond the program, by letting one to join family of future leaders and expecting one to behave accordingly.
ii) Empowering one towards the career journey by away of learning new skills and concept that are important in life.
iii) Creating environment where you can help each other, this is by creating community members where you can share resources, reach out for and provide feedback. (the more you give the more you get.)

2(D). I login to the Slack and I introduced myself to the squad as required and it was easy process.

2(E). The person I can talk to if I am feeling stressed or need support during this program will be member of my community created in the program.
